

— FOR STUDENTS —

GET STUDENTS FUTURE-READY

From researching potential careers to developing 21st-century skills, the High School and Beyond bundle prepares students for personal and professional success.

Self-assessments uncover interests and aptitudes and guide students to the careers, college, and training that suit them best. Students can also take a series of online PSAT tests to prepare for college admissions exams — and get immediate results to help them improve.

IN-DEPTH CAREER EXPLORATION

Students analyze their interests, skills, and lifestyle expectations to arrive at workable (yet flexible) plans for their future.

INTEGRATED CAREER PLANS

Students connect career goals to your course catalog, building personalized plans that can feed directly into registrations.

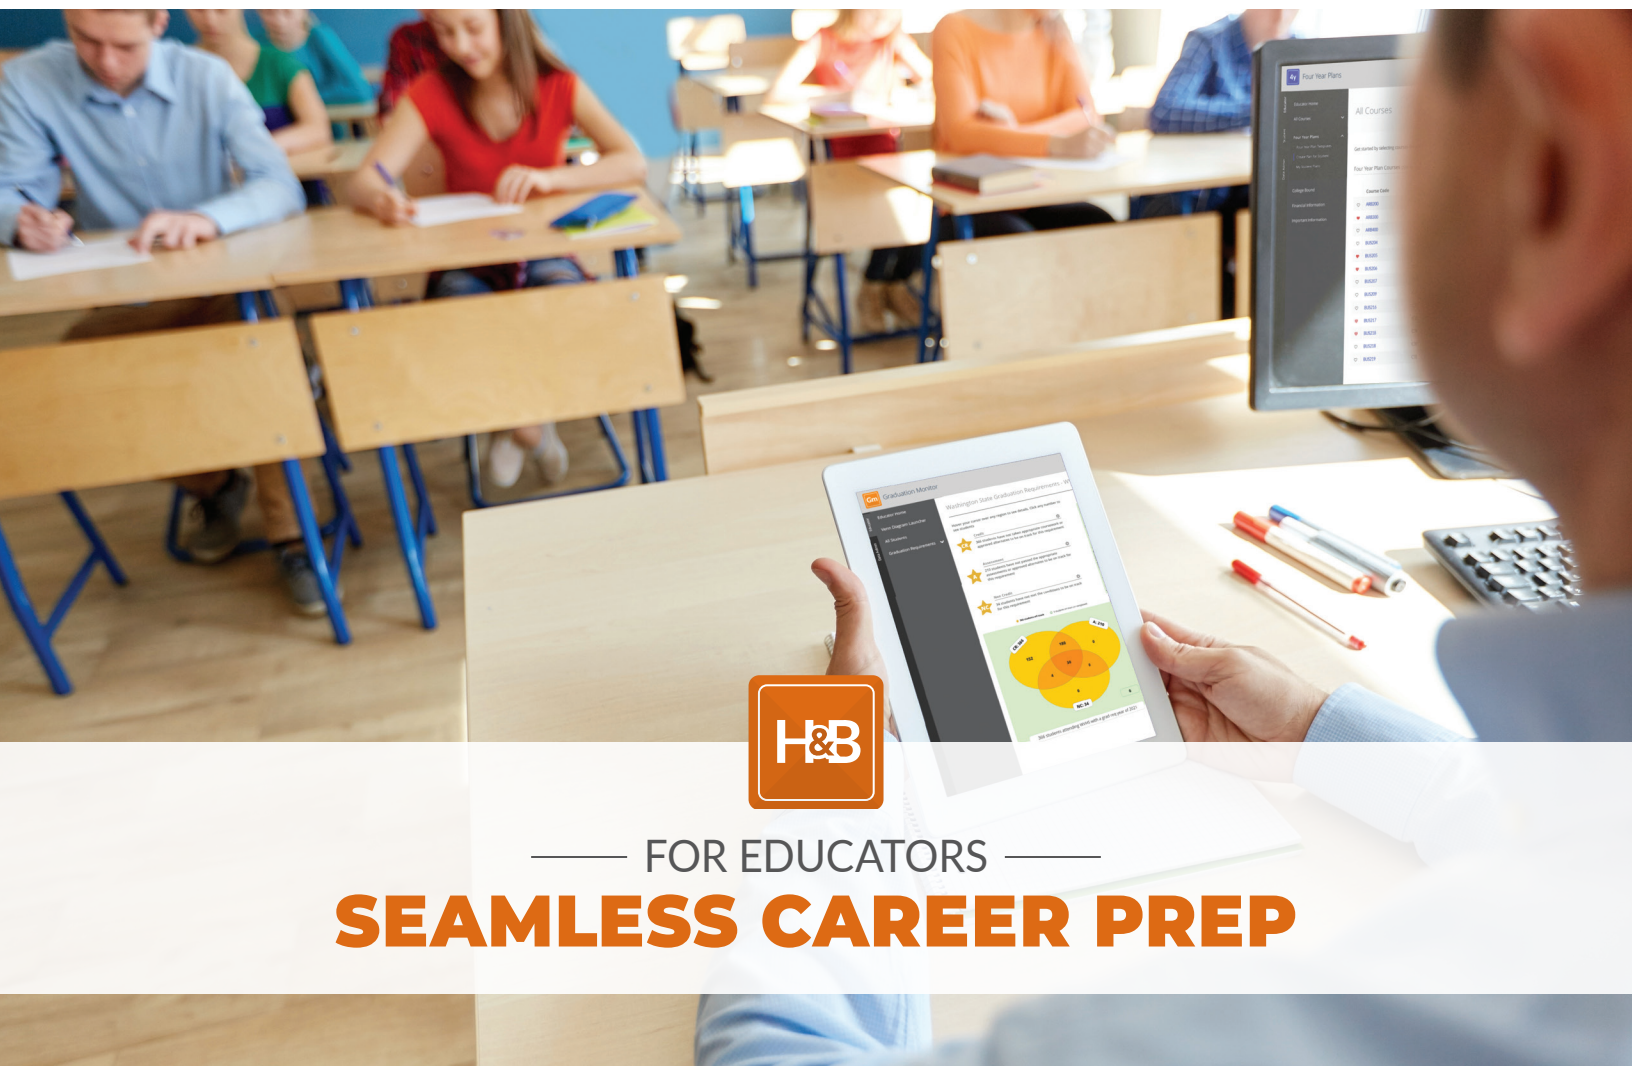

CHARACTER BUILDING

Students set goals for personal development and request feedback from teachers and parents on their progress.

OUR EXTENSIVE CAREER DATABASE IS ACCESSIBLE TO YOUR STUDENTS AT NO COST.

— FOR EDUCATORS —

SEAMLESS CAREER PREP

The High School and Beyond bundle personalizes career planning for all your students, whether their next step is the university, military, or job market. Celebrate both academic and non-academic achievements as you help students build a robust resume for their future pursuits.

Informative visuals help you pinpoint missing requirements and other graduation obstacles for groups and individuals, so you can monitor hundreds of students with ease.

IMPROVE GRADUATION RATES

See at a glance which students are on track for graduation and which ones need extra support, while there's still time to intervene.

GO BEYOND GRADES

Rate students' readiness using any data points you specify, from discipline incidents to assessments completed, and manage individual waivers for grad requirements.

MAXIMIZE SAT PERFORMANCE

Online PSAT assessments provide invaluable practice for students — and early, actionable data for educators.
