

# EVALUATIONS

## MANAGE OBSERVATIONS AND REVIEWS WITH EASE

Produce information-rich evaluations for all your employees with the Evaluations application. Integrated data from your Student Information System supplies objective insight into student growth. And collaboration is fostered between evaluators and evaluatees, as well as within Professional Learning Communities.

The application provides each user with all their evaluation tasks for the year, so self-evaluations and observations occur in a timely fashion. Whether you use a state-approved framework or a district-specific process, Evaluations can be customized to meet your needs.

### COMPLIANCE MADE SIMPLE

Check all the boxes of your performance rubric for consistent and fair evaluations.

### FLEXIBLE FRAMEWORK

Customize to your district's standards, and reflect the right tasks for each employee's role.

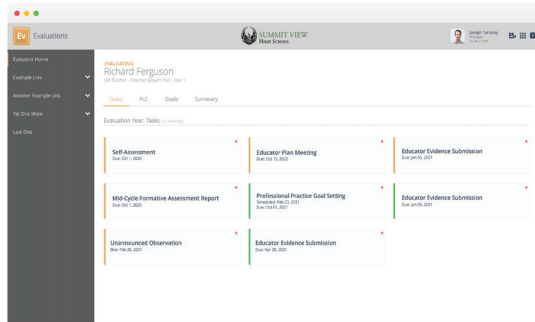

### PROCESS MANAGEMENT

Email notifications and task deadlines create clear handoffs as tasks are completed.

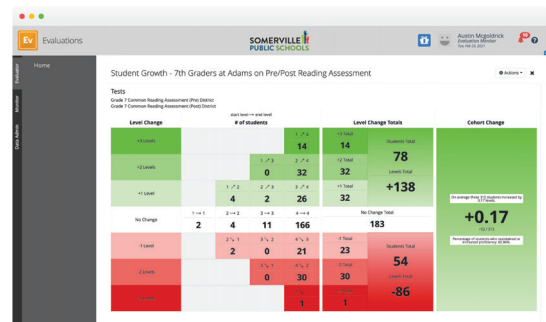

# SIMPLIFIED AND STREAMLINED

MANAGE EVALUATIONS IN ONE PLACE, FOR ALL YOUR  
CERTIFICATED OR CLASSIFIED POSITIONS.

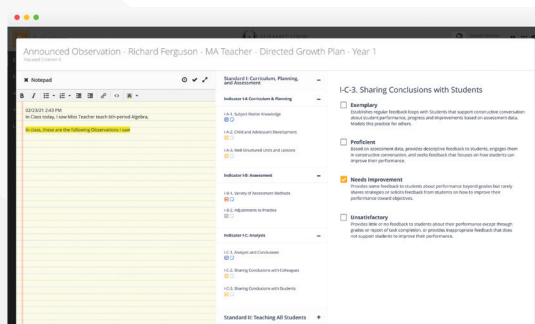

Everything you need for effective evaluations is here, from observation meeting  
notes to student performance data to growth-focused goals.

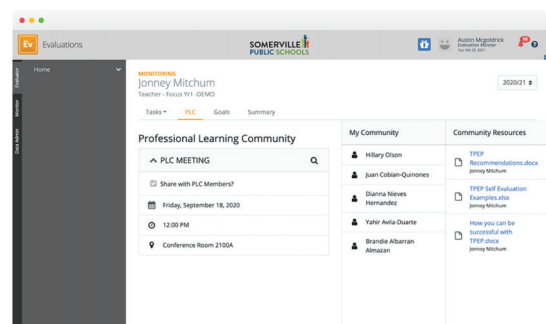

See the status of tasks at a glance, ordered  
by due date. Icons indicate which tasks are  
required and which are past their deadline.

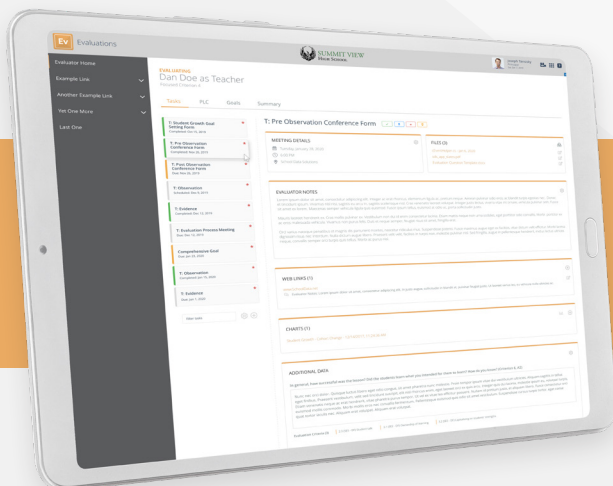

Incorporate evidence, such as grades,  
assessment scores, or student growth charts,  
and tie them to specific evaluation criteria.

Make observations more efficient, with  
ratings, rubrics, and space for notes on the  
same screen.

Enhance collaboration opportunities with  
goals, meeting notes, and resources that can be  
shared with an educator's PLC.

Support your educators' evaluations  
with student achievement data, and  
you'll inspire increased performance.
