

EVALUATIONS

MANAGE OBSERVATIONS AND REVIEWS WITH EASE

Produce information-rich evaluations for all your employees with the Evaluations application. Integrated data from your Student Information System supplies objective insight into student growth. And collaboration is fostered between evaluators and evaluatees, as well as within Professional Learning Communities.

The application provides each user with all their evaluation tasks for the year, so self-evaluations and observations occur in a timely fashion. Whether you use a state-approved framework like AWSP or CEL or a district-specific process, Evaluations can be customized to meet your needs.

COMPLIANCE MADE SIMPLE

Check all the boxes of your performance rubric for consistent and fair evaluations.

FLEXIBLE FRAMEWORK

Customize to your district's standards, and reflect the right tasks for each employee's role.

PROCESS MANAGEMENT

Email notifications and task deadlines create clear handoffs as tasks are completed.

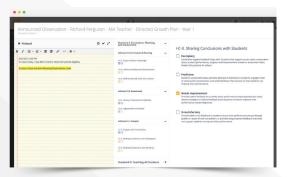

SIMPLIFIED AND STREAMLINED

MANAGE EVALUATIONS IN ONE PLACE, FOR ALL YOUR FOCUSED, COMPREHENSIVE, OR CLASSIFIED POSITIONS.

Everything you need for effective evaluations is here, from observation meeting notes to student performance data to growth-focused goals.

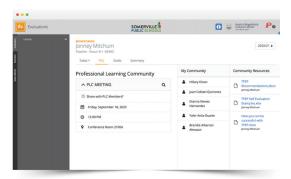

See the status of tasks at a glance, ordered by due date. Icons indicate which tasks are required and which are past their deadline.

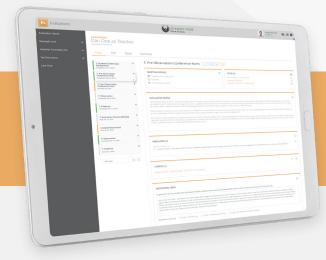

Make observations more efficient, with ratings, rubrics, and space for notes on the same screen.

Incorporate evidence, such as grades, assessment scores, or student growth charts, and tie them to specific evaluation criteria.

Enhance collaboration opportunities with goals, meeting notes, and resources that can be shared with an educator's PLC.

Support your educators' evaluations with student achievement data, and you'll inspire increased performance.
