FOUR YEAR PLANS

SANDBOX GUIDE

for Educators

Four Year Plans enables Educators to view courses, create plans for students and also view plans their students have already created. One of OSPI's requirements includes students creating a Four Year Plan. Because of this, it is helpful for Educators to be able to see their progress and give input when needed.

Four Year Plans Student

Introduction

After students discover their interests and skills in Career Planner, they will use that information to better help them plan their courses in Four Year Plans. Four Year Plans allows students to see courses available to them, create a plan based on those courses, view if they are on track, etc. The Four Year Plan application also provides students information regarding Financial Aid (FASFA).

Login Information:

High School Student

Password: highschool.student.password

All Courses

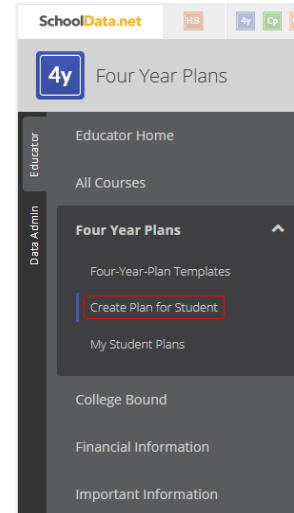

Students can view all courses available to them. Only courses that are offered and active at their school will appear. This allows students to research what courses they may want to take before creating their Four Year Plan.

Creating a Four Year Plan

OSPI requires that students create a Four Year Plan. When creating a Four Year Plan, students can plan courses that align with their Post Secondary Plan and Graduation Pathway. Their Four Year Plan also displays whether they are on track for Graduation by displaying what they have completed, planned for, or need to add to their plan.

Financial Information

As required by OSPI, students must be provided information regarding Financial Aid (FASFA). Students are not only provided this information, but the district can request to add the banner and/or a survey to confirm their understanding of the information they have been given.

Financial Information

Important Information

Financial Information

Don't Let the cost of college stand in the way of your career goals.

The information below helps you learn about many options to pay for education. Grants and scholarships are free money for your education. Apply for many grant and scholarship opportunities. The time you invest to search and apply for free money could make a difference in the college you attend and the amount of money you may need to borrow.

After you learn about financial aid options, please complete the Financial Aid Reflection.

It all starts with the FAFSA or the WASFA. In Washington, students complete one of two applications to be considered for student financial aid: the FAFSA (Free Application for Federal Student Aid) or the WASFA (Washington Application for State Financial Aid). The applications open October 1 each year and students should try to complete their financial aid application as soon as possible after that date. In addition to state and federal aid, many school-based and school-funded scholarships require students to submit a FAFSA or WASFA form for consideration.

The FAFSA
U.S. citizens and eligible non-citizen students will be considered for grants, loans and work-study funds upon completion of this form. Federal aid can be used at technical, two-year and four-year colleges and universities across the country. Learn more about eligibility requirements and complete the FAFSA at [FAFSA.gov](https://fafsa.gov) and studentaid.ed.gov.
