

# Absence Response

All your absence tasks present and accounted for

No more racing from place to place to manage your attendance requirements. SchoolData.net's integrated solution means you can fulfill all your monitoring and interventions for chronic absence in one easy-to-use application.

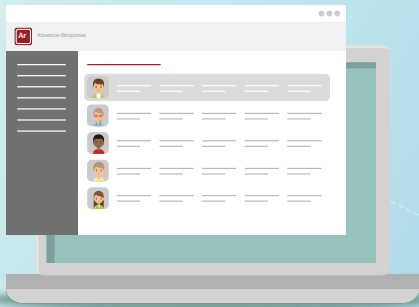

## Track

Set district-specific alerts to surface the absences that require your action, from the first unexcused absence to the 3rd in 30 days.

## Notify

Parent notifications — by letter, robocall, or text message — can be sent in bulk, with a record of each communication attempted.

## Report

Your documented absence response provides a clear paper trail that's always ready for review by administrators, officials, or families.

## Correct

Go beyond awareness of absences to actively reducing them. Launch an attendance contract or other intervention plan in just a few clicks.

## Escalate

Need a truancy petition or board referral? Generate paperwork directly from the application. The relevant state law is made available for easy reference anytime.

Stay ahead of chronic absence. Absence Response is your comprehensive answer to student absence management.
