ENHANCE YOUR STUDENTS' COLLEGE CHANCES WITH **TEST PREP**

No more waiting months for the results of standardized preparation tests. Now you can anticipate — and improve — your students' performance on their college readiness exams.

Test Prep provides students with a series of practice assessments they can take online, starting in 9th grade. Students grow their capabilities on exams that can direct their college choices, while districts gain insights into college-preparation needs — at a significant cost savings over the traditional proctored tests.

IMMEDIATE RESULTS

Educators can analyze test results, in aggregate or by individual, to supplement students' education.

ENHANCE TEST QUALITY

With practice tests accessible to all, every student gets the chance to improve their scores and their college admissions advantages.

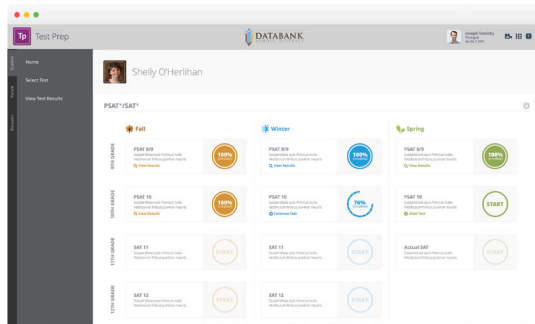

CUSTOMIZED PREPARATION

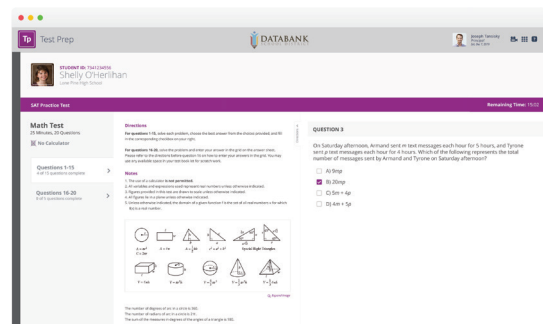

Define when students can take practice tests and set prerequisites based on your district's needs.

ACCESSIBLE. EQUITABLE. ACTIONABLE.

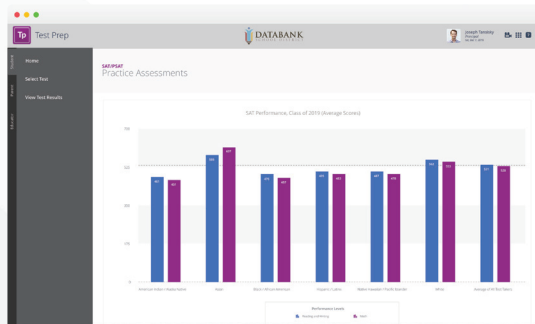

Students get invaluable practice in SAT® and PSAT/NMQST® test taking. Educators get data that clearly spotlights areas for improvement — while there's still time to make a difference.

Students log in to take practice assessments and see their progress through the allotted test trials.

Validated question banks from Horizon Education allow students to gain confidence with the test questions and format.

Disaggregate assessment results by any available demographics to determine if a group needs additional support.

Student Full Name	Test Completed	Date Completed	Overall Score	Math Score	Reading Score
James Smith	PSAT 10	August 10, 2019	1270	320	340
John Doe	PSAT 10	August 10, 2019	1270	320	340
John Doe	PSAT 10	August 10, 2019	1270	320	340

Monitor your students' practice and performance at a glance, with scores for both completed and in-progress assessments.

“Schools can't wait on data from College Board or ACT. When teachers administer practice assessments and gather immediate and meaningful data from those exams, it can have life-altering implications for their students.”

Dustin Bainbridge, Founder and CEO, Horizon Education
