## STUDENT: ASSESSMENT STATUS

Students can take practice assessments each term

**Labels clearly indicate which assessments are:**

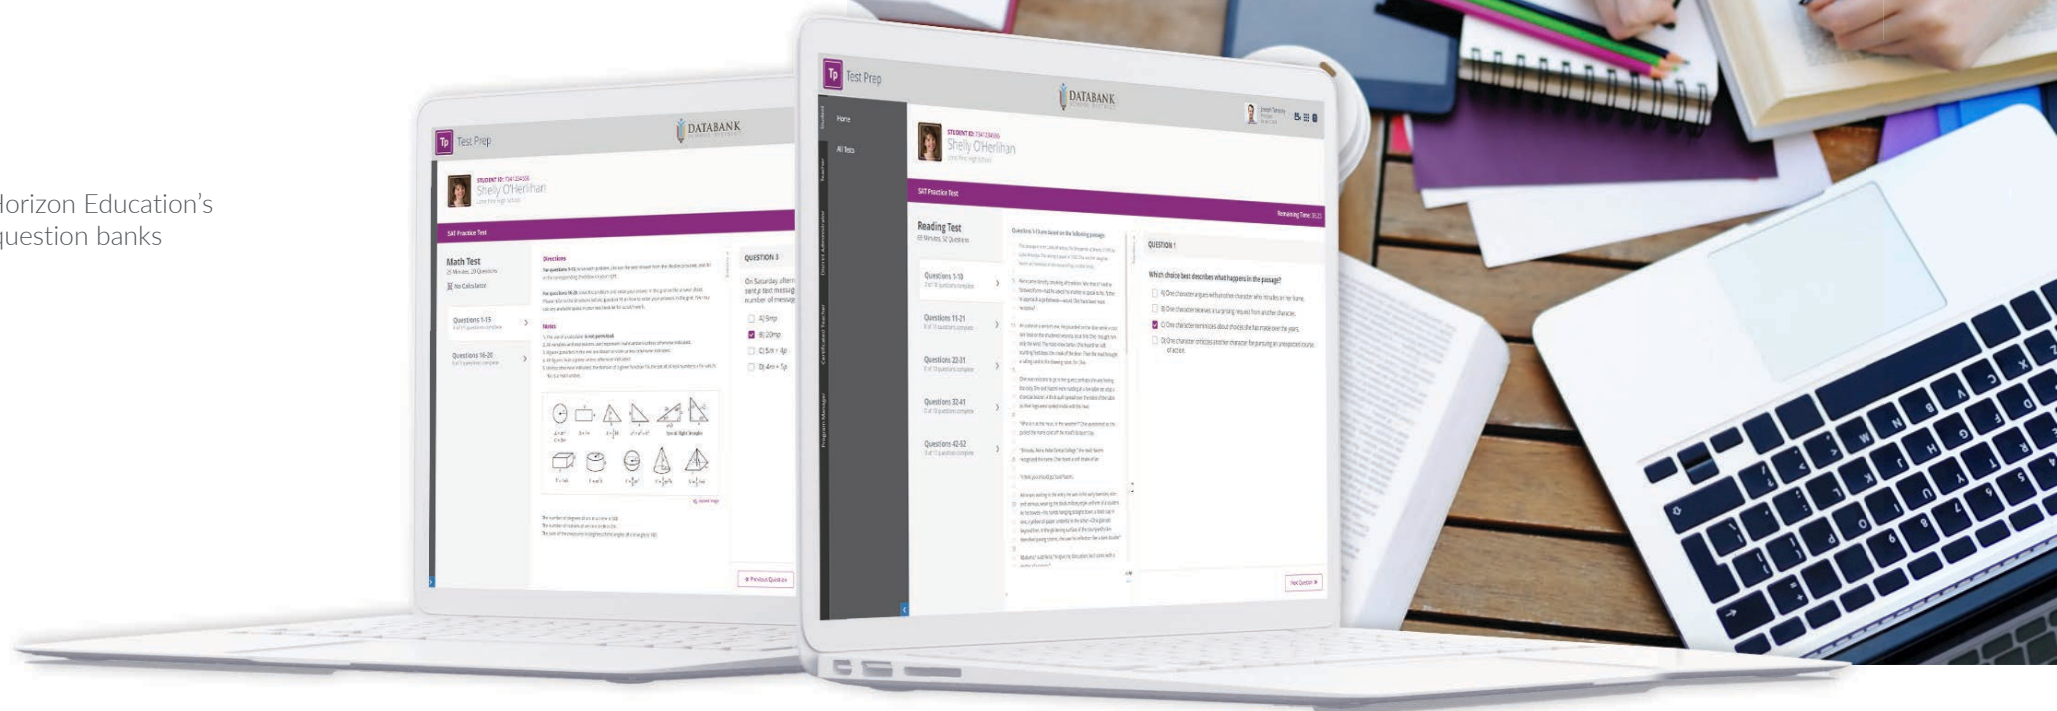

- Available to student (based on grade level)
- In progress or partially completed
- Completed but open for the student to revisit questions or finish (submit)
- Finished, with student results submitted to educators

## STUDENT: PRACTICE ASSESSMENTS

Draw on Horizon Education's  
validated question banks

## STUDENT: LEARNING FOR STUDENTS

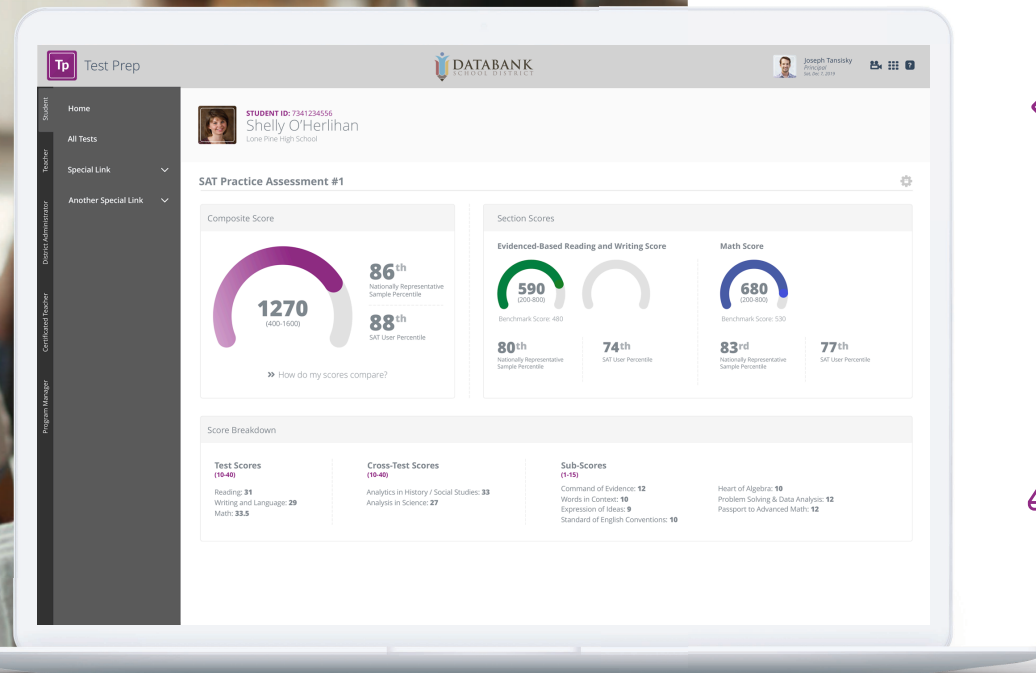

Help students toward self-improvement rather than comparison with peers

Students see their scores and estimated percentiles for each assessment section

Score breakdowns illuminate areas of opportunity

## EDUCATOR: PERFORMANCE MONITORING

Educator dashboards are highly configurable and automatically filtered to the students in your charge.

### Districts can choose to monitor:

- which students have taken practice assessments
- how students are performing on practice assessments
- which question types are most challenging for students

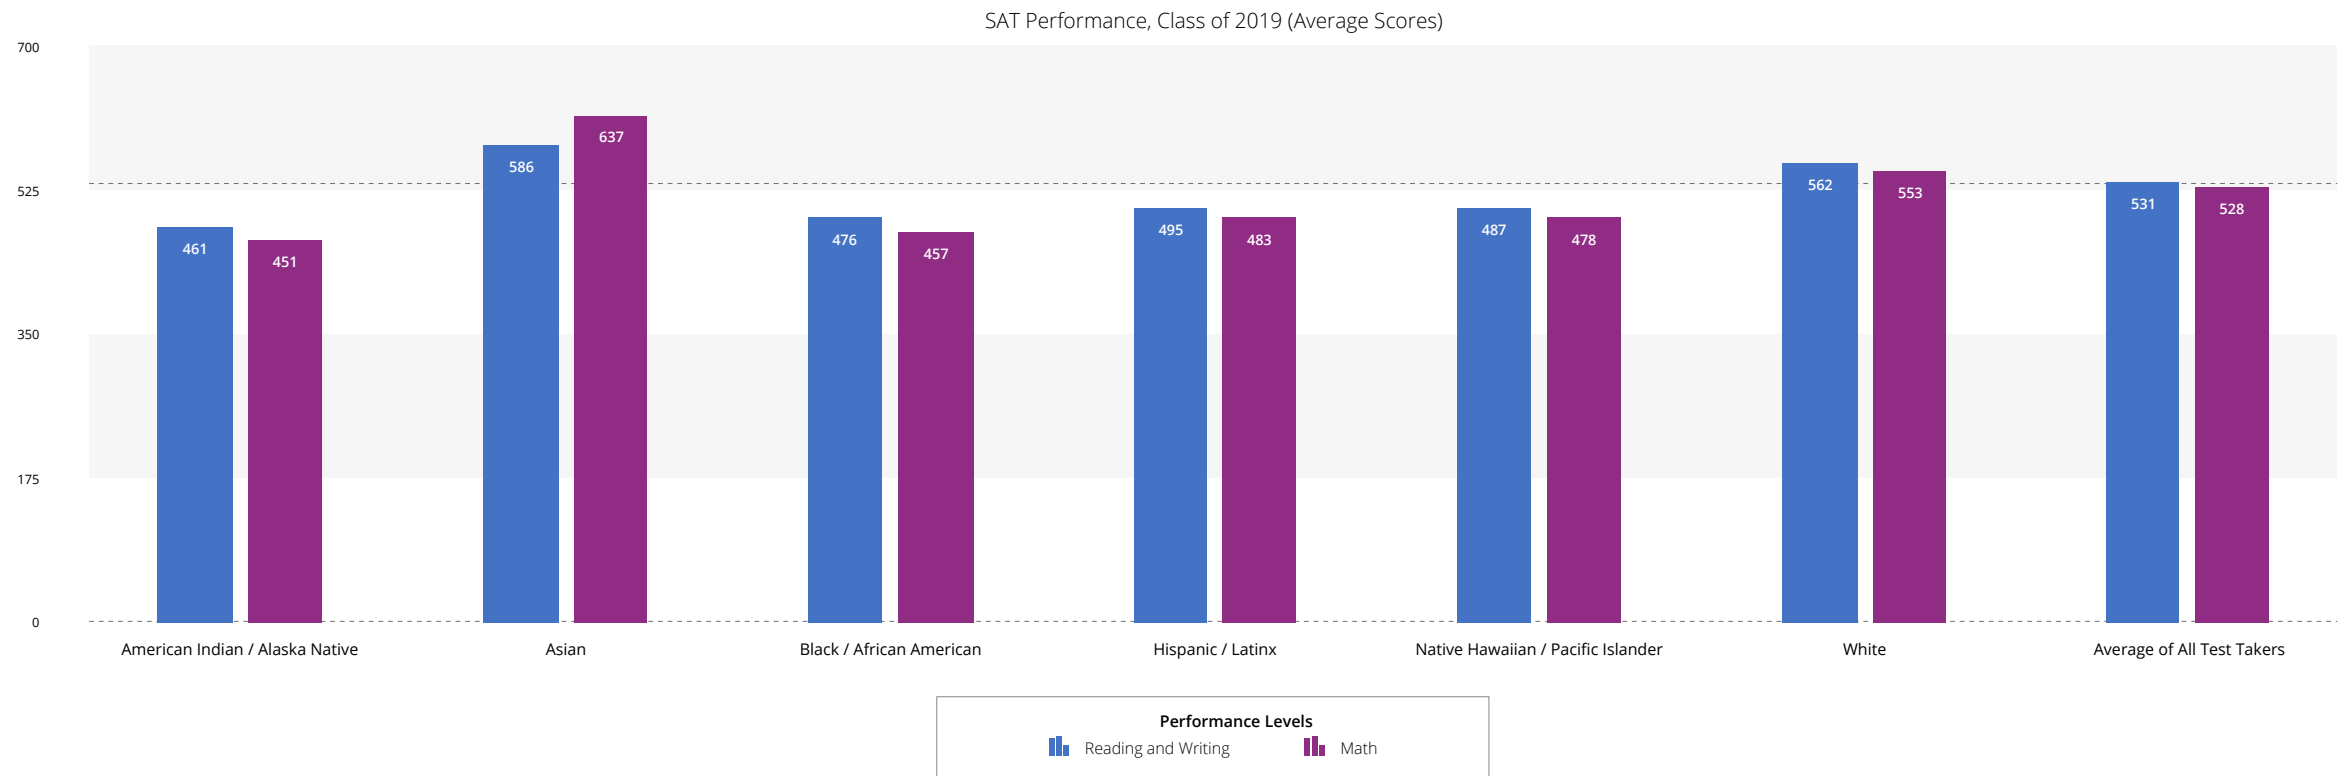

The laptop screen displays the DATABANK Educator Performance Monitoring dashboard. The dashboard includes a sidebar with navigation options: Home, All Tests, District Administrator, Content Area Review, and Program Manager. The main content area is titled 'SAT/PSAT Practice Assessments' and shows a table of 'Practice Assessments (79 records)'. The table has columns for Student Full Name, Test Completed, Date Completed, Overall Score, Math Score, and EBRW Score. The data is filtered to show results for PSAT 10 tests.
