

## **STUDENT PLANS**

CREATE AND MONITOR ALL YOUR TARGETED INTERVENTIONS

Make your data work harder for the students who need it most. SchoolData.net integrates all your student data and channels it into efficient and informed interventions.

Each plan type — whether for academic, health, or behavioral supports — can be configured, so your plans are as unique as your students. Because the flexible framework is user-friendly, educators can implement plans quickly and help students stay on track.

### **SIMPLE SETUP**

Bulk creation tools and fields pre-populated with student information mean that plans can be prepared in minutes.

### **PRIVACY PROTECTIONS**

Access to sensitive student information is limited to the individual's instructors and personnel you pre-approve.

### **CUSTOM-FIT TO DISTRICTS**

Customize your plans, with forms and selections that reflect the needs of your students.

# MEET STUDENT NEEDS WITH EASE

INDIVIDUALIZED INSTRUCTION IS COMPLEX.  
LEARNING PLAN CREATION DOESN'T HAVE TO BE.

The Student Plans bundle from SchoolData.net simplifies plan management, helping educators stay focused on measurable results for students.

Get step-by-step guidance from the Prior Written Notice to 504 Plan creation, so your district is always in compliance.

Elevate health data to students' Spotlight Dashboards, giving teachers instant access to life-saving information.

Share meaningful data with families, published in the home languages of your English-language learners.

Assessment	Name	Score	Percentile	Score Type	School Year
✓	BA Lorraine Math/Science	2019	95	Advanced	2019
